1. Project Summary

Starns Properties, LLC is proposing to expand the existing parking lot for use at Master Auto Repair. The new parking lot expansion will service the existing business as additional customer vehicle storage and employee parking. This facility will allow Master Auto the much-needed space it requires for growth to meet consumer demand. The project will also include new lighting, landscaping, and a dumpster enclosure.

The project is located at 206 Vandalia Street, Collinsville, Illinois in Madison County. The property area is approximately 1.34 acres (Parcel ID 13-2-21-34-05-101-002, 13-2-21-34-05-101-001, and 13-2-21-27-17-301-020). This project includes the expansion of the existing parking lot at the north side of the existing building along with corresponding drainage improvements, a new dumpster enclosure, site lighting, and landscaping improvements.

A minor subdivision plat will be provided to consolidate the existing parcels within the site.

The property is currently zoned B-2. As part of Collinsville's Uptown Master Plan, the City has requested that the site be rezoned to UCD. In light of the current legal non conformity of the business within the B-2 district and proposed UCD district, rezoning to a Planned District (P-UCD) is requested to allow for Automotive Repair and Maintenance services as a permitted use.

A location map has been included in **Attachment A**. A proposed site plan has been included in **Attachment C**.

2. Legal Description

County: Madison

Owner: Starns Properties LLC

Parcel: 13-2-21-34-05-101-002, 13-2-21-34-05-101-001, 13-2-21-27-17-301-020

Legal Description is included as **Attachment B**.

3. Relationship to Surrounding Land Use and Zoning

The proposed project is centrally located in Collinsville, at the corner of East Clay Street and IL-159. The site consists of three parcels, all zoned B-2 (Commercial District). Surrounding the site, several neighboring properties also share the B-2 zoning, including SS. Peter and Paul Catholic School to the west across IL-157, Terry's Appliance Center to the south across Clay Street, and residential homes to the east. To the north of the project site lies a residential area zoned R-1.

A list of properties and property owners within 250 feet of the subject property has been provided in **Attachment D**, and a zoning map has been provided in **Attachment E**.

4. Conformance to Comprehensive Plan and Future Land Use Map

The proposed development aims to conform to the City's Comprehensive Plan and Future Land use map to the maximum extent while preserving the ability of Master Auto to continue their business within the Zoned District.

5. Traffic Impacts and Parking

The proposed development is expected to have no impact on existing traffic conditions. The additional parking is intended only to reduce congestion within the existing Master Auto property and is not expected to generate additional trip volume. No changes to entrances or movements are planned. The proposed improvements add 11 parking spaces to provide additional space on site for customer and employee vehicles. One striped ADA parking space will be added adjacent to the existing ADA space to provide the required accessible parking for a lot containing over 25 spaces.

6. Impact on Infrastructure and Public Services

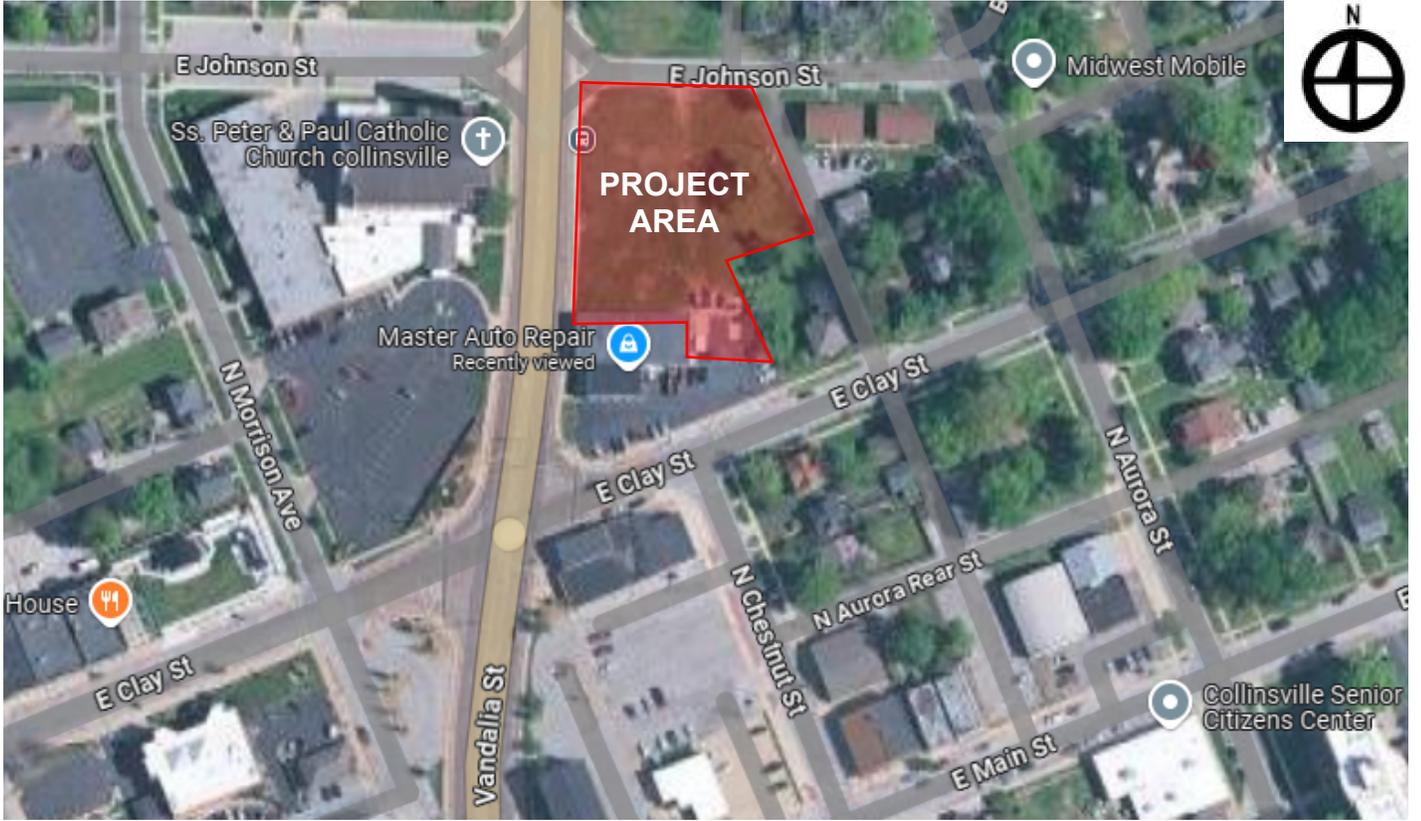

The proposed development is expected to have minimal impact on infrastructure and public services. Utility usage and loading requirements are expected to be comparable to existing use. Stormwater and drainage impacts are proposed to be minimized with the use of a dry detention basin to mitigate additional runoff generated and mimic pre-development drainage conditions. A rock garden is proposed to be embedded in the detention basin to improve water quality per City Requirements.

7. Reason and Justification for Deviations from Requirements of the Zoning District

The owner is requesting Planned District Status to ensure their business is considered legally conforming moving forward. The proposed development as discussed in this report aims to adhere to all UCD zoning requirements as they pertain to the improved portion of the lot.
